

# 3DGS, AR, AND VR FOR VIRTUAL PRODUCTIONS

JENS HERDER, VIZRT DAYS 2026

# Person Jens Herder

- 1983 TH Darmstadt, Germany
  - Informatics / Computer Science
- 1991 Symbolics (Lisp Machines were used for AI research and development)
  - Lisp, Rapid Prototyping, Object-oriented Versioned Database
- 1993 University of Aizu, Japan
  - Teaching and Research
- 1999 University of Tsukuba
  - PHD
- 2000 Hochschule Düsseldorf - University of Applied Sciences
  - Virtual Studio / Virtual Reality
- 2003 Journal of Virtual Reality and Broadcasting ([www.jvrb.org](http://www.jvrb.org))
- 2009 Cooperation with Vizrt

# MIXED REALITY

- So what is XR?
- What makes the difference?
- The ratio of generated and scanned pixels?

Smartphone with Tracking

Virtual TV Studio

Mixed Reality

[MiKi1994]

# Augmented Reality for Studio Broadcast Systems

- from Live Video Switching using Contextual Information to Configuration and Control of Studio Equipment
- Accepted to the International Conference on eXtended Reality (XR Salento) 2026

[BHHe2026]

[Balt2026]

[Hoel2026]

# 3DGS GAUSSIAN SPLATS

- PortalCam from Xgrids
- Lidar and 4 Cameras
- 500 GB Memory
- Scanning 7-70 Minutes
- Processing 1-4 Hours

[Pre2026]

# GAUSSIAN SPLATS FOR LIGHT AND SHADOWS

- Tobias Preuss, Master thesis
- Many high resolution pictures are used for generation the Gaussian Splats
- HDR Gaussiann Splats for light simulation necessary
- Gaussian Splats receiving light and shadow, rendering using raytracing
- Rendering with Houdini / Redshift

# GAUSSIAN SPLATS

- NeRFs (Neuronal Radiance Fields)
- Machine Learning
- Effizient directional color coding using spherical harmonics

$$\mathcal{N}(\mu, \sigma^2) = \frac{1}{\sigma\sqrt{2\pi}} \exp\left(-\frac{1}{2} \left(\frac{x - \mu}{\sigma}\right)^2\right)$$

# 3DGS WORLD MODELS

- from image
- from prompts
- SpAltial.ai
- Echo-2

# GAUSSIAN SPLATS

- Easy scanning and fast rendering
- AI can be used for generating Gaussian Splats
  - from small number of images
  - from prompts
- Easy Digital Twins as Sets

# PRESENTING VR IN A VIRTUAL STUDIO

Copyright: "WDR, solis film+content productions, Hannah Grüne", 12.3.2026

# DER HAUSHALTS-CHECK MIT YVONNE WILLICKS

- Haushalt, Wandfarbe für zuhause: Preis, Qualität und Wirkung! Der Haushalts-Check, 13.05.2026, 44:11 Min., WDR
- Produced partly at the Virtual Studio HSD
- Synchronisation of two tracked cameras and two HMDs

- <https://www1.wdr.de/fernsehen/haushalts-check/sendungen/wandfarbe-hhc-104.html>

WDR<sup>1</sup>

# AUTOMATIC CAMERA CONTROL

- Using marker less motion tracking

Control panel with various icons for camera and lighting settings:

- cube on, cube off
- disconnect, connect
- stop default, send default
- pos Gold, real pos br, real pos cr
- Person 1 Rechts, Person 1 links, Person 2 Rechts, Person 2 Links
- golden left, left third, center, right third, golden right
- close up 2, human close, medium shot, long shot
- low, normal, high perspective

Person 1 left	Viz Ren 1&2	10.0
Person 1 right	Viz Ren 1&2	8.0
center	Viz Ren 1&2	5
close up 2	Viz Ren 2	10.0
medium close up	Viz Ren 2	10.0
medium shot	Viz Ren 2	10.0
medium long	Viz Ren 2	10.0
long shot	Viz Ren 2	10.0
medium shot	Viz Ren 2	10.0
high perspective	Viz Ren 1&2	15.0
low perspective	Viz Ren 1&2	15.0
normal perspective	Viz Ren 1&2	10.0
vertical pos center	Viz Ren 1&2	8.0
vertical pos third	Viz Ren 1&2	8.0
vertical pos Golden Ratio	Viz Ren 1&2	8.0
2 Person	Viz Ren 1&2	30.0
Person 2 left	Viz Ren 1&2	8.0
Person 1 right	Viz Ren 1&2	8.0
cube on	Viz Ren 1&2	1.0
1 Person + Object	Viz Ren 1&2	30.0
cube off	Viz Ren 1&2	1.0
send default	Viz Ren 1&2	15.0

# Automatic Positioning and Zooming Mode: 2 Persons

[Hoe2026]

Control panel with various icons for camera and lighting settings:

- cube on, cube off
- disconnect, connect
- stop default, send default
- pos Gold, real pos br, real pos cr
- Person 1 Rechts, Person 1 links, Person 2 Rechts, Person 2 Links
- golden left, left third, center, right third, golden right
- 2 Person, Person + Object
- close up 2, human close, medium close, medium shot, longshot
- low, normal, high perspective

Person 1 left	Viz Ren 1&2	10.0
Person 1 right	Viz Ren 1&2	8.0
center	Viz Ren 1&2	5
close up 2	Viz Ren 2	10.0
medium close up	Viz Ren 2	10.0
medium shot	Viz Ren 2	10.0
medium long	Viz Ren 2	10.0
long shot	Viz Ren 2	10.0
medium shot	Viz Ren 2	10.0
high perspective	Viz Ren 1&2	15.0
low perspective	Viz Ren 1&2	15.0
normal perspective	Viz Ren 1&2	10.0
vertical pos center	Viz Ren 1&2	8.0
vertical pos third	Viz Ren 1&2	8.0
vertical pos Golden Ratio	Viz Ren 1&2	8.0
2 Person	Viz Ren 1&2	30.0
Person 2 left	Viz Ren 1&2	8.0
Person 1 right	Viz Ren 1&2	8.0
cube on	Viz Ren 1&2	1.0
1 Person + Object	Viz Ren 1&2	30.0
cube off	Viz Ren 1&2	1.0
send default	Viz Ren 1&2	15.0

# Automatic Positioning and Zooming Mode: 2 Persons

[Hoe2026]

# CAMERA CONTROL

- Global view for good automatic control
- The virtual scene should be used **also** for the automatic camera control
- Easy cinematic control
- Scene understanding

Hochschule Düsseldorf  
University of Applied Sciences

**HSD**

 UNIVERSITÄT  
SIEGEN

**KOSTENEFFEKTIVE, VOLUMETRISCHE ERFASSUNG  
VON BAUGRUBEN UNTER VERWENDUNG VON AR**

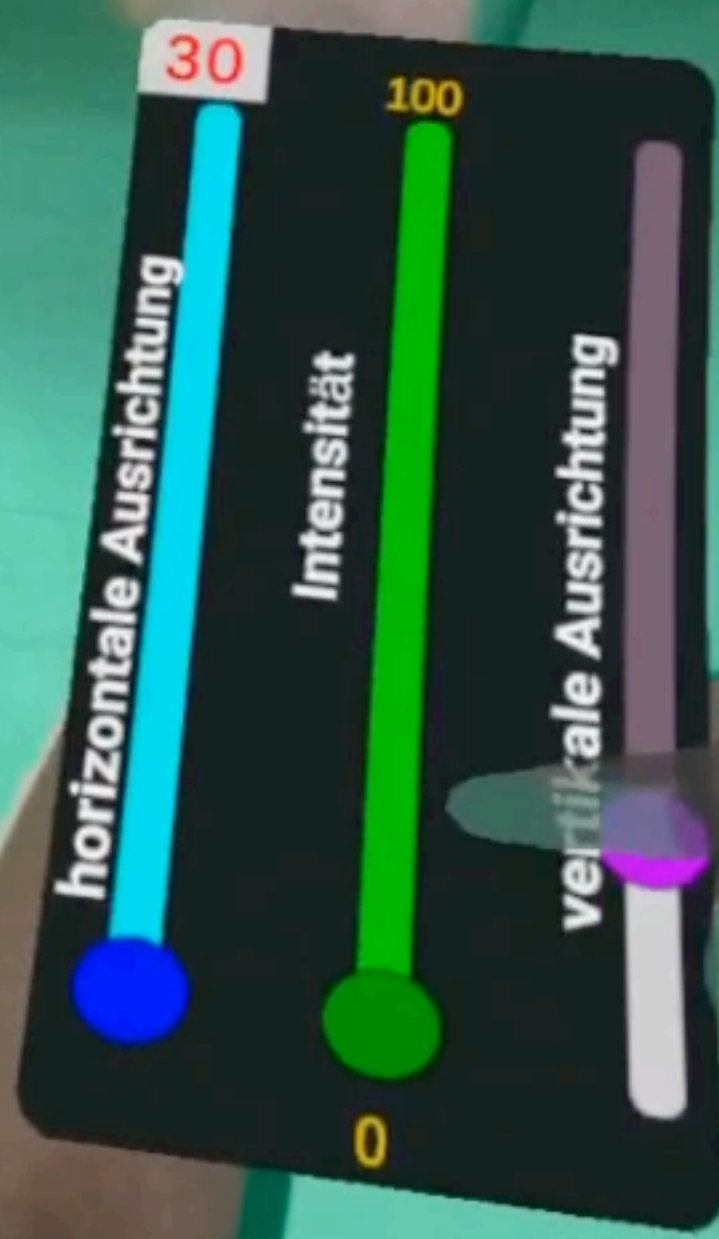

M.Sc. Mathias Langmann, Prof. Jens Herder, Dr. Eng. / Univ. of Tsukuba  
Hochschule Düsseldorf, Labor für Virtuelles Studio / Virtuelle Realität  
Univ.-Prof. Dr.-Ing. Monika Jarosch  
Lehrstuhl für Praktische Geodäsie u. Geoinformation, Universität Siegen

 **DDGI**  
**9. DEUTSCHES GEOFORUM 2021**  
Bedeutung der Geoinformation für Gesellschaft und Wirtschaft | 25. November 2021

[MaHe2025]

# LIGHT ADJUSTMENT AT A VIRTUAL TV STUDIO USING AR

- Quest Pro with Passthrough (Video See Through)
- Reference coordinate system
  - manual setup (no spatial anchors)
- Controller vs. Hand Tracking
- Selection using Eye Tracking
- NDI video streaming

[IVS2022]

[Einh2025]

# VIDEO PLAYER IN VR OR AR

- Large screens everywhere
- Better accessibility
- Sign language avatars

# TAKEAWAY

- VR and AR
  - Overcome space and time
  - Ideal and efficient interaction
  - Ultimate display with no limits
  - Media consumer platform
  - Used for content creation
  - Accessibility can be improved using sign language avatars
- Scene understanding
  - Enable better and easy camera control
- 3DGS and AI
  - Easy content production, any place at any time

# DEMO AT THE EXHIBITION

- PortalCam scan
  - in Viz Artist mit Unreal, cg objects
  - Vision Pro only 3DGS
- Quest 3 control of the Virtual Studio in Düsseldorf
